

LA SALLE HIGH SCHOOL

LASALLIAN EDUCATION
Transforming Lives Since 1680

Dear Parent/Guardian,

The La Salle High School Counseling Department offers your son, academic, college/career, and emotional support in a variety of ways. This includes collaboration and consultation with teachers and staff, individual counseling on an as needed basis, and classroom guidance lessons. In the wake of the COVID-19 pandemic, the counseling department is looking to provide increased support by offering a school-wide mental health screener and counseling groups for the 2021-2022 school year.

The results of the mental health screener will be confidential and will only be used by the La Salle High School Counseling Department to better support your son. Based on the information we are able to gather, we will invite students to participate in counseling groups as an extra layer of support. Counseling groups are made up of a small number of students led by a trained mental health professional with a focus on a specific topic. Counseling groups can be effective by helping to reinforce skills and encourage learning without the intimidation of a large group setting.

We emphasize that groups are for everyone, and participating does not necessarily indicate a problem. We believe that all students can learn from and provide support for each other.

If you would NOT like your son to participate please fill out the bottom of this form and turn it in to Mr. Schmucker in-person or via email. If you have questions or concerns, please feel free to contact Mr. Zach Schmucker at 513-741-2672 or zschmucker@lasallehs.net.

Sincerely,
The La Salle High School Counseling Department

I do NOT want my son, _____ to participate in the:

Mental Health Screener _____ Counseling Groups _____

Student ID# _____

Parent/Guardian Name (Print): _____

Parent/Guardian Signature: _____
