Sophomores will take a semester of Health and Financial Literacy either at La Salle or online. Please note, Envision and LSI students must take Health and Financial Literacy online.

When scheduling, priority is given to the five main subjects (English, Mathematics, Science, Social Studies, and Religion) followed by electives in the order you have indicated in PowerSchool. While every effort is made to provide students with their first choice of courses, this is not always possible. Thought and consideration should be given to the selection of three alternate courses, as students may be placed in one of their alternates.

Please see your counselor with any questions you have during the course selection process.
