

La Salle Intern Academy

What Interns are Saying

Internal interns get the opportunity to go to FC Cincinnati

“In my internship here at La Salle High School, I get to help with a lot of different hands-on activities, I get to take field trips to different places to learn about their different marketing techniques, I get to update our social media, and I get to attend meetings with alumni and school directors. This internship is going to help me in the future by giving me a ton of different perspectives on marketing techniques and it's going to prepare me for meetings in my future.”

Carson Thomas Class of 2025

External intern at Mr. Label Co

“My internship is currently at Mr. Label, I was also previously at Hudepohl Construction. Some of the skills I've gained from these internships are communication skills, teamwork, self-management and the biggest one is gaining a feel for the real work field. This program could benefit other students with figuring out what they want to do after high school. It gives you a head start to learning about the different careers and how they work and gives you a feel for what you want to do and not want to do.”

Jacob Brunsman Class of 2024
